ST. JOSEPH GRADE SCHOOL

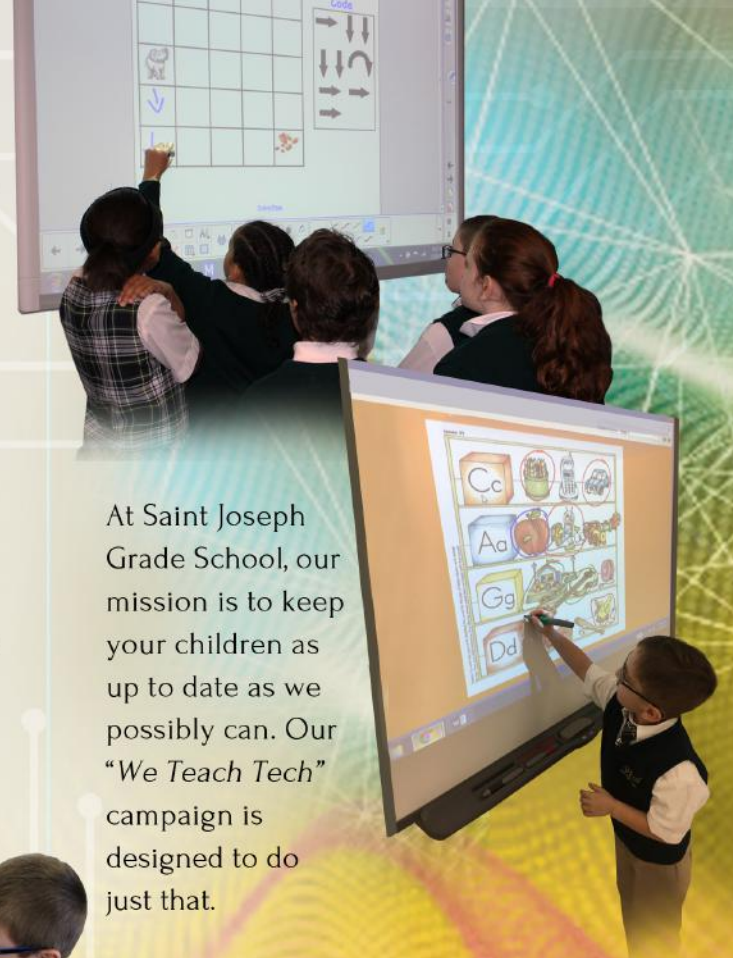

The technological age is an amazing time and our SJGS students are right in the thick of it all! It's astounding to have the ability to retrieve almost any type of information in seconds and the power to be able to communicate in a thousand different ways using a device that today, fits in the palm of your hand and for some, on the wrist.

There's always something new on the horizon and we can't help but wait and wonder what technological marvels are coming next.

Our world has become increasingly technology-dependent. Technology has become an integral part of our everyday lives. We use it to shop, socialize, connect, play, and most importantly, learn.

In today's classroom, technology is an essential learning tool to prepare our children for their future studies and careers. It helps teachers to lay the groundwork and prepares students for their future careers in our tech-savvy, real life environment. It also gives students the opportunity to interact with their classmates, encourages collaboration, and creates a motivated learning environment.

At Saint Joseph Grade School, our mission is to keep your children as up to date as we possibly can. Our "We Teach Tech" campaign is designed to do just that.

These are the three areas of focus to our 2018 "We Teach Tech" campaign:

- #1** Replace classroom Smart Boards with new up-to-date ones;
- #2** Purchase additional iPads to grow our fully integrated web-based curriculum.
- #3** Replenish materials for the STEM Lab and 3-D Printer.
